Corporate Message

Encouraging people and cities

Management Philosophy

Throughout its long history, Yasui Architects & Engineers has strived to give the best possible architectural form to its clients and society as a whole. We believe that architecture should draw on the essence of communities to enrich them and inspire individuals. It is with this ethos, by working closely with society, that we aim to contribute to the future.

Work Vision

We aim to provide valuable solutions that are based on the experience and knowledge we accumulated through building design and supervision, and draw on our network of experts in various fields. We offer proposals that satisfy our clients with all aspects of design, technology, maintenance, cost planning, and more.

Services

YASUI ARCHITECTS & ENGINEERS, INC.

Building Design and Supervision

Building planning, surveying and concept
Visual design
Interior plan
Structural design
Environmental and building services design
Landscape design
Cost plan
Construction supervision: third-party supervision

City Plan

Surveys related to city and district plans
Land use plan
District plan
Redevelopment plan
Traffic plan
City facilities plan
Scenic plan
Environmental assessment
Lifestyle design research

ICT

IPD/BIM promotion
Various calculations
Simulation
Image processing: CAD/CG
GIS: geographic information system
BIM consultant
Program development
Development of information sharing tools
- BuildCAN
- Panorama memo

Environmental Design

Use of renewable energy
Energy-saving technology
Environment simulation
CASBEE assessment
Energy management

Consulting

Project management: PM
Construction management: CM
Property management: PrM
Public advisory work: PFI/PPP
Supervisory work: design/visual design/supervision
BCP: Business continuity planning, support

Facility Management

Stock management
Life cycle management
