

Business Model Formulation Survey for Self-purification of Environmentally Polluted Water
and Development of Green Infrastructure in Vietnam
Selected for the JICA FY2020,
the second “SDGs Business Supporting Surveys”

Yasui Architects & Engineers, Inc. (Head office: Chuo-ku, Osaka/President: Yoshihiko Sano) and Wesco Co., Ltd. (Head Office: Okayama-shi, Okayama/President: Toshinao Matsubara) applied, in December 2020, and were selected for the SDGs Business Supporting Surveys (FY2020, the second round) by the Japan International Cooperation Agency (JICA) with the “Business Model Formulation Survey for Self-purification of Environmentally Polluted Water and Development of Green Infrastructure in Vietnam.”

On April 16, JICA announced the selected 54 projects on its website with the introduction of the project overviews.

1. Content of Our Proposal

In Vietnam, there are many needs for water purification in both public and private sectors, including governments (county, city, province, etc.) working on purifying inland waters in cities and private aquaculture companies for shrimp and other products. To solve such issues at a low cost, we provide water purification technology and create a business. Through these activities, we aim to contribute to the improvement of the environment, conservation of natural ecosystems, and enhancement of urban landscapes.

2. Title of the Selected Proposal

Business Model Formulation Survey for Self-purification of Environmentally Polluted Water and Development of Green Infrastructure (subject country: Vietnam)

3. Business Operators

Wesco Co., Ltd.

Yasui Architects and Engineers, Inc.
